## November 2013 Newsletter

Volume I Issue 2

Van Cleve & Associates, Inc.'s monthly newsletter is intended to keep you, our valued customer, up to date with announcements regarding our latest products and technologies, upcoming exhibitions and conferences, and other news and events in the security and surveillance industry.

### Product News

#### Announcing the new X-320 Handheld Thermal Imager from L-3!

L-3 Communications has released a new version of the popular X200xp handheld thermal camera, the X320! The X320 has 320x240 resolution, 2x zoom, video out for simultaneous recording, and temperature measurement. The unit is waterproof up to 3 feet submersion, shockproof up to a 6 foot drop, has adjustable polarity, can detect human activity up to 735 meters away, and can run for up to 6 hours with 2 AA lithium batteries.

#### Totevision All-In-One Touch Screen Monitors

Totevision has developed a 55" and a 70" multi-functional video monitor that includes an ATSC/QAM TV tuner & an integrated PC with multi-touch capabilities. Designed for use in any application that benefits from onboard computing with multi-touch screen functionality, these units operate on the Microsoft Windows OS, have a 64bit system, Intel Core i5 processor, display full 1080p HDTV, and offer a multitude of connectors including VGA, HDMI, & USB. The unit can connect to networks via WiFi and/or LAN and the 4-point multi-touch IR touch screen offers the best IR touch performance available.

Please contact VC&A for additional information on these or any of our products, or to schedule a demo.

#### Arnouse Digital Devices – BioDigital PC A Fully Functioning Credit-Card Sized PC

The BioDigital PC card is a fully operational motherboard containing an Intel Atom series processor (N2600, N2800), up to 4GB DRAM and up to 128GB SSD. The unit operates on a true Intel x86 processor and runs a full Windows 7 or 8, or LINUX. It has a fully secure Trusted Platform Module (TPM) chip with secure hardware and data encryption, offers high definition video encoding and decoding, and can be utilized with optional CAC card readers.

The unit is encased in epoxy and is both waterproof and fire resistant. It uses up to 80% less power than a conventional desktop PC, making it an ideal solution where size, weight, and power (SWAP) are a concern.

The BioDigital PC can be used as a stand-alone device or integrated into another product / system. A 100-pin configuration allows for connectivity to peripheral devices, or a docking station / reader board can be used and will provide connectors for monitor, keyboard, and mouse, as well as other hardware devices and network connectivity.

Shell products (laptop, tablet, monitor, etc.) are available and enable the use of the PC card anywhere – at home, in the office, on the go, or anywhere in between!

### Other News & Notes

#### Extended Warranty

Axis Communications recently announced new extended warranty options available for all new product purchases. Extended warranty options can be purchased in two-year blocks up to a maximum of 5 years extended warranty.

#### 2013 Government Video Expo

The 2013 Government Video Expo will be held at the Walter E. Washington Convention Center in Washington D.C. from December 3-5. This is the largest pro video, AV/IT event on the East Coast, and includes workshops, conferences, and a trade show with over 200 exhibitors.

#### ACTi Camera Special

ACTi is offering a special year-end discount on their E96 camera. The E96 is a 5MP, indoor mini Fisheye dome. It offers 15 fps at 2592 x 1944 resolution, a vandal resistant housing, basic wide dynamic range, 180/360° panorama view with dewarping, PoE, and includes a 1.19mm fixed lens, for less than \$300!
