## Other News & Notes

### Siklu Transmitters Used at Super Bowl LIVE

Part of the two week festivities, Super Bowl LIVE was a 10-day outdoor event in Houston expected to attract over one million visitors. To help secure the area, the city of Houston selected Siklu radios to transmit video surveillance. Their narrow beam technology and operation on the unoccupied, wide 60GHz spectrum validated the decision by eliminating the possibility of network congestion, interference, or disruption. \*Courtesy of GSN
